Sprint Training - SportsEngine

Elite sprinters typically have very detailed training programs that involve a multitude of key lifts done for targeted percentages and low reps. But since you likely don't ever need to break 10 seconds over 100 meters, you can just make some simple tweaks to your own training to start reaping some of the benefits of sprinter training.

The Strength and Speed Workout | Muscle & Fitness

Currently the program involves training three times a day on Monday, Tuesday, Thursday and Friday; Saturday is reserved for a single specific workout. The time frame I personally use is the following: 1st Workout - 10 a.m.... 20-45 minute active warm-up, max velocity sprint mechanics, plyometrics/bounding, and a cool-down of 10-15 minutes.
