Views on addiction are often polarised - either addiction is a matter of choice, or addicts simply can't help themselves. But perhaps addiction falls between the two? This book contains views from philosophy, neuroscience, psychiatry, psychology, and the law exploring this middle ground between free choice and no choice.

Addiction and Choice: Rethinking the relationship ...

## **Addiction And Choice Rethinking The Relationship**

Two polarised views of addiction, and the seemingly endless dispute between them, go way back. The 'moral' view, emerging from pre-industrial times, is that what we would now call addictive behaviour represents a free choice, similar to all the other apparently autonomous choices people make every day and are fully responsible for.
