### Avenio M Siemens

The Avenio family with its two lines, Avenio and Avenio M, offers you custom solutions that are designed just for your city. All this is based on a common, modular toolkit of proven systems and components representing more than 135 years of unique experience: Siemens built the world's first electric tram in 1881 and also has 25 years of experience in 100% low-floor technology.

**Avenio | Trams and light rail | Global - Siemens Mobility** and Budapest. Siemens developed the Avenio platform (single-articulated steel vehicles), which has since been used as the basis for projects in The Hague, Doha and Munich. 2013 saw Siemens expand the platform further with the "Avenio M", a multi-articulated vehicle with a fully welded aluminium car body. The project in Ulm is
