Iso Dis 45001 Nsai

To combat the problem, ISO has developed a new standard, ISO 45001 for occupational health and safety management systems that will help organisations reduce this burden by providing a framework to improve employee safety, reduce workplace risks and create better, safer working conditions, all over the world. The standard was developed by a committee of occupational health and safety experts, and follows other generic management system approaches such as ISO 14001 and ISO 9001.
