Software updates are important to your digital safety and cyber security. Unfortunately, simply installing antivirus software isn't enough to protect you and your devices.

Using manual mode, it is not necessary for the program number to be part of the file name. Example: The operator selects the file MOULD.MZK on the manual tab. This file contains the program 1001. The operator must then enter 1001 in the Load CMT->NC menu on the control, before starting the transmission.
