LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Oxford University Press 2012, 416 pages, \$69.99. A new entry into the popular format of case-based publications is the recently published (2012) softcover book *Neuroradiology Cases: Cases in Radiology* written by Drs. Eskey, Belden, Pastel, Vossough and Yoo. This 416-page book is divided into 3 sections (brain/spine/ENT) and unabashedly has the aim of appealing to those preparing for the ABR examination.

Neuroradiology Cases: Cases in Radiology - AJNR Blog

The fellow is in-house until 3 AM, reading out all neuroradiology cases from the ER and any inpatient cases for which a reading is requested. At 3 AM, the fellow hands over the beeper to the overnight radiology resident in the ER but remains available to him or her as back-up until 7:30 AM the next morning.

Neuroradiology Fellowship - Massachusetts General Hospital

Cases By sharing our collective experience through interesting patient cases, we can make a real difference in how people are imaged and diagnosed. Each case belongs to a contributing member, which can then be viewed and added to articles or playlists by the community, and is guided by dedicated editors to match quality standards and privacy needs.
