Oxford English for Information Technology

noun. The study or use of systems (especially computers and telecommunications) for storing, retrieving, and sending information. 'I am probably one of the few people in the House with a degree in computer science and information technology.'. 'He administered and oversaw the telecommunications and information technology systems for the company.'.

Information Technology | Definition of Information ...

The meaning of information. Information began life in English with a specific sense, borrowed from (Anglo-Norman) French: accusatory or incriminatory intelligence against a person. Excepting specific legal contexts, that's no longer an active sense, though it survives as a dominant meaning of related terms like informant and informer. Ostensibly, information became a more neutral term, but it ...
