Revolution in The Valley: The Insanely Great Story of How Mac Was Made Andy Hertzfeld

Revolution in the Valley traces this vision back to its earliest roots: the hallways and backrooms of Apple, where the groundbreaking Macintosh computer was born. The book traces the development of the Macintosh from its inception as an underground research project in 1979 to its triumphant introduction in 1984 and beyond.

Folklore.org: Revolution in the Valley

Revolution in the Valley is a new hardcover book, published by O'Reilly Media in December 2004, that is based on the stories and recollections of the very people responsible for creating Apple's Macintosh computer. Revolution in the Valley answers these...
